General Notes:

1. We had a soldout crowd tonight which is very evident with the reactions and the energy in the room. This crowd has made me realize what a crowd we could have had and the others have been very much dead. We also decided to do a warmup before the show and I gave the cast a little pep talk which could have also helped with energy levels tonight. This has truly been the best overall night that we have had since we opened.

Technical Notes:

1. A piece of the picture frame broke off again.
2. One of the fake twigs fell off of the branches.

Administration Notes:

1. No notes, thank you!
